Removing honey supers is as hard as you make it. In this video, I show how Fischer's Bee Quick works with a fume board to push the bees out of the supers. I also talk about other uses for the product when working with your bees.

I'am still not sure about using it..idk what long term effects would be. It may run the whole colony out of a hive. WOULD I USE IT? NO! I USED NO CHEMICALS! But it did a good job. Thanks for sharing

You are suppose to brush up yo remove bees not down

Thrifty Santa 4 years ago
What kind of jacket are you wearing? Where did you purchase?
